(*) conditional

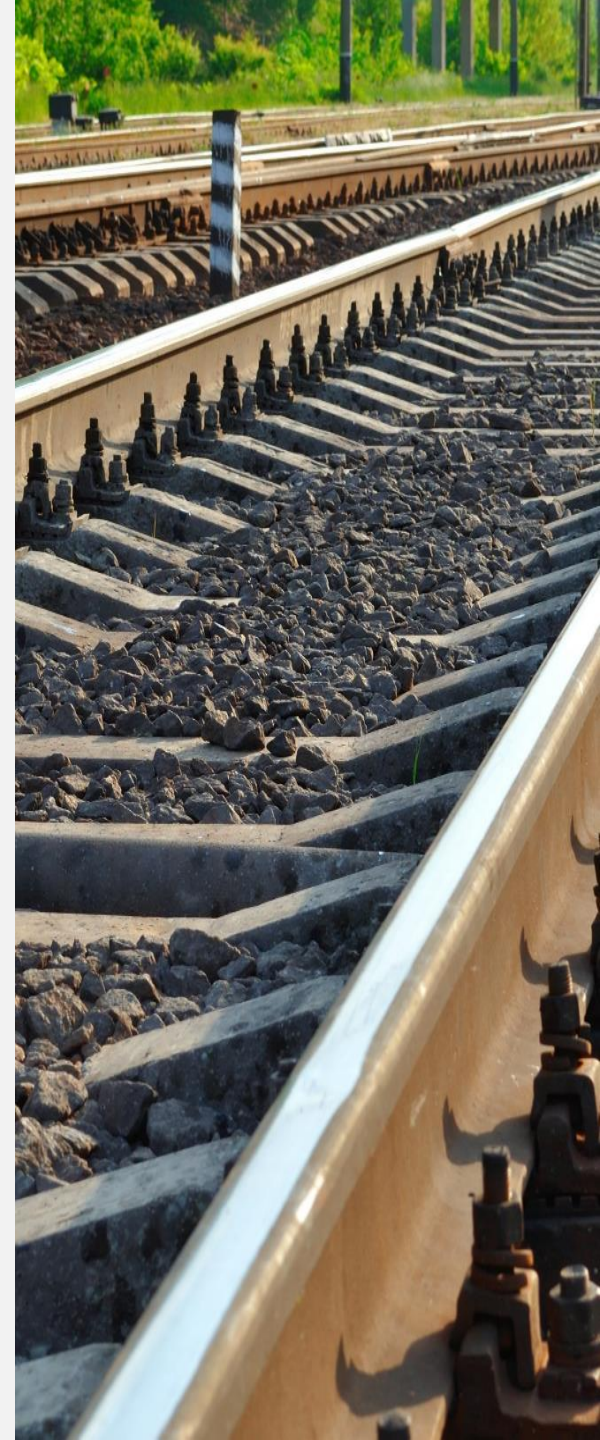

National Safety authorities

- NSAs continue authorising the fixed installations

Art. 18 DIOP 2016/797

Every new authorisation request of a fixed installation with ETCS, GSM-R or ERTMS shall **include a positive decision on ERTMS trackside approval**. The possible exceptions should be aligned to Art. 55 DIOP 2016/797

- NSAs shall have visibility to the approval requests in the OSS before the call for tenders is launched and during the whole process
- NSAs can provide opinions on ongoing approval requests to be considered by ERA. NSAs can propose issues on an ongoing approval request

Applicant

- Applicant can be any entity but should be the one requesting the authorisation to place in service the fixed installation
- Applicant must submit the application before the call for tenders is published
- One single applicant per application
- Only EU members can apply
- Application geographical scope can cover several EU member states
- Applicable for ETCS, GSM-R or ERMTS
- Applicant can include contributors in the application

THANK YOU
